

NORTH BROOKHAVEN SPORT FISHERMEN CLUB

North Brookhaven Sport Fishing Club Freshwater Fishing Division. A Freshwater Club Champion will be selected in the same manner as we select a Saltwater Boat Champion and Saltwater Surf Champion. The trial period for this would be one season. If we get good participation we will review the format and permanently adopt the Fresh Water Division.

Fishing: Must be done with a rod and reel. (Spinning, revolving and * fly include) There will be only one category Fresh Water Fishing. This will include **Boat, Kayak and Shoreline. All local (NYS Region 1) rules for fishing a particular body of water must be observed and obeyed.

Species: Will be limited to those commonly found on LI (NYS Region 1) and limited to. Crappie, Yellow Perch, Black Bass, Brown Trout and Rainbow Trout and Chain Pickerel

Chits: Fresh water chits will be handled in the same manner as the Salt Water chits.

Rules: All applicable NBSFC Saltwater Contest Rules will be applied.

Awards- No monetary awards will be given for any species either monthly or annually. Certificates will be given for each species annually and a Fresh water Fisherman of the Year will be acknowledged with a Plaque and a Certificate.

* The committee recognizes that Fly Fishermen may have an advantage over standard rod and reel fishermen as they can fish in more secluded areas and less fished areas. This will be reviewed on an annual basis and if participation allows a separate division may be named

** The committee recognizes that Boat and Kayak fishermen may have an advantage over shoreline fishermen as they can reach more areas of a body of water. This will be reviewed on an annual basis and if participation allows a separated division may be named.

Adopted 4/18

***At the February 2019 board meeting the board elected to continue the Freshwater Division and revisit it after another year.02/19
